Carbon Dioxide (CO2) is used on Class R (Flammable Liquid) Fires, CO2 is safe to use on live electrical fires. BFI use high quality Luxfer CO2 cylinders in the construction of their CO2 extinguishers. To monitor and maintain quality, all BFI CO2 extinguishers are assembled and tested in our Newcastle Warehouse.

CO2 Extinguisher Features

- Australian Standard Certification by SAI Global (5 Ticks)
- High fire ratings
- Brass extinguisher valves
- Wall hook for mounting
- *Five-year manufacturers warranty
- Reliable after sales service
- Stainless steel handles

Specifications

Fire Extinguisher - CO2	FP20CO2A
Product	
Code	FP20CO2A
Capacity	2.0kg
Rating	2B:E
Overall Weight	5.7kg
Cylinder Height	540mm
Cylinder Diameter	111mm
Performance	
Operating Temperature	-20ºC to + 60ºC
Test Pressure	220 BAR
Operating Pressure	5.0 MPA (50 BAR)
Minimum Discharge Time	14 sec

* BFI CO2 extinguishers are manufactured and approved to AS1841.6
