

After many years supplying an extended line of AFFF extinguishers to the New Zealand market, BFI now off the 'Foamline' Range of AFFF Extinguishers in Australia. Offering sizes beyond the typical 9ltr size offered by most Fire Companies, and carrying an F rating these units are robust and useful in many applications. Foamline Extinguishers are manufactured and certified to AS1841.4. BFI's extinguishers are manufactured with stainless steel cylinders.

**Foam Extinguisher Features**

- Australian Standard Certification by SAI Global (5 Ticks)
- High fire ratings
- High quality durable construction
- Mounting hook or bracket
- Five-year warranty

**Specifications**

Fire Extinguisher - Foam	FL16AF
<b>Product</b>	
Code	FL16AF
Capacity	1.6LT
Rating	1A:1F
Overall Weight	3.0kg
Cylinder Height	370mm
Cylinder Diameter	119mm
<b>Performance</b>	
Operating Temperature	+1°C to +60°C
Test Pressure	2.5MPA
Operating Pressure	5 Bar
Minimum Discharge Time	13.8-15.7 sec
