Portable dry chemical, foam and CO2 extinguishers

Value for money shouldn't come at the expense of total safety. Our Australian Standard Hose Reels offer both.

They're a cost-effective solution to meeting building code requirements. And they give reliable protection from class A fires - the most common fires in commercial and residential buildings.

Uses and applications

- Class A fires
- Class B fires
- Class E fires

Mobile extinguisher features

- High fire ratings
- units come with wheeled trolleys
- One year warranty
